

MODEL NO. 11.1400.008
Magnetic Mount Low Profile
LED Mini Bar

GENERAL INFORMATION:

The **SHO-ME**® Low Profile LED Mini Bar is equipped with a Solid State LED Flasher. The flasher has 7 flash patterns including random. To change LED flash pattern, press the momentary switch (**Located on the lighter plug adaptor**). Each time the momentary switch is pressed, the flash pattern will change.

LED FLASH PATTERNS

Double Alternating	Double Simultaneous
Quad Alternating	Quad Simultaneous
Quint Alternating	Random
Mega Alternating	

INSTALLATION INSTRUCTIONS:

Determine location to mount your Low Profile LED Mini Light Bar. Keep in mind airbag deployment area and any other obstacles. Run wire inside of vehicle and connect to cigarette plug, or power outlet.

WARNING: The steel content of vehicle roofs varies considerably and some may not be suitable for mounting warning lights with magnetic bases. **It is the sole responsibility of the users** of magnetic based lights to determine if portable warning lights may be safely used on the exterior of their vehicle.

If mounting this product requires drilling holes, the installer **MUST** be sure that no vehicle components or other vital parts could be damaged by the drilling process. Check both sides of the mounting surface before drilling begins. Also deburr any holes and remove any metal shards or remnants. Install grommets into all wire passage holes.

Use only soap and water to clean the outer lens. Use of other chemicals could result in premature lens cracking (crazing) and discoloration. Lenses in this condition have significantly reduced effectiveness. Inspect and operate this product regularly to confirm its proper operation and mounting condition. **Do not use a pressure washer to clean this product.**
