SHO-ME®

Model No. 11.2842
LED Duo Dash Light
with Internal Flasher Hard Wire

General Information:

The Duo Dash Light is a compact, highly visible, emergency warning light. It has seven flash patterns: Double Alternating, Quad Alternating, Quint Alternating, Mega Alternating, Double Simultaneous, Quad Simultaneous, and Automatic Random Select
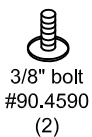

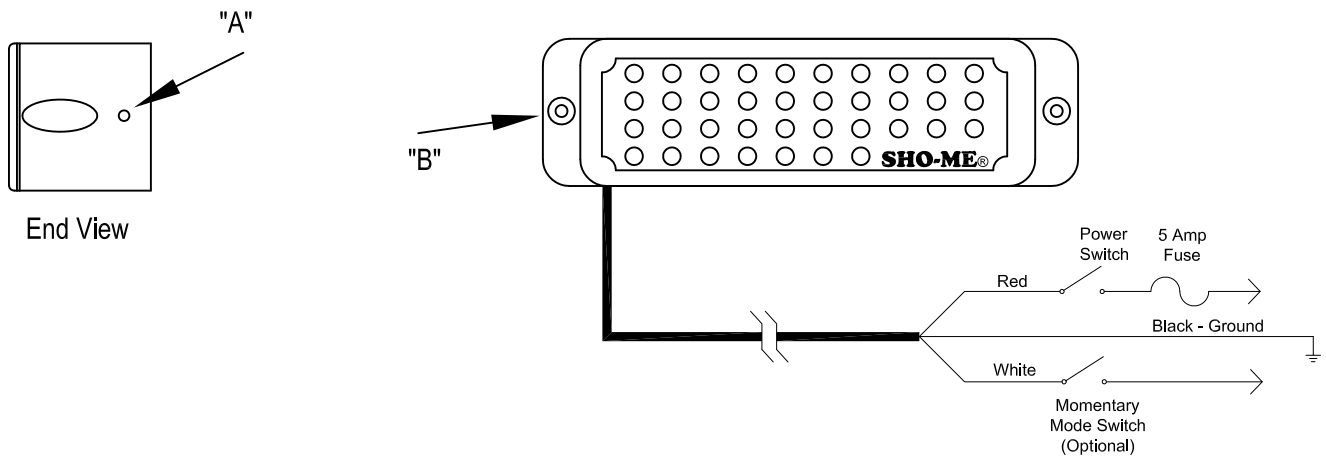

INSTALLATION INSTRUCTIONS:

1a. **LED Light Installation With Brackets**
Drill out the mounting hole, Point A, on each end of the LED Light to 11/64".
Attach the bracket to desired location. Then place the LED Light into the bracket and attach it using the shorter screws and locknuts. The gasket will not be needed.

1b. **LED Light Installation Surface Mount**
Use Point B. Drill the (2) holes on the mounting surface for the LED Light using an LED Light as a guide. Place the gasket under the LED Light. Attach the LED Light using (2) longer screws provided.

2. After mounting the Duo Dash Light, wire to power switch (not included) and momentary switch (optional) as shown in diagram below. (Keep in mind Air Bag Deployment area and other obstacles.)
